6. Fast Transfer active
7. Conf/Transfer CA used

## Disclaimer

This guide is written to support EKTS operations on the Siemen's EWSD Central Office Switch. Please refer to the User Guide for additional instructions.

This guide presents only one procedure to accomplish an action. In most situations there are multiple methods to accomplish a given action.

This guide supports the operation of activation and deactivation via one button or dialog Optiset menu. The dialog activation of Auto Call Back will only function in this mode.
